FUTURE OF DESIGN

LIGHTSIDE™ SPA CABINET

Wood-like, wide horizontal side and corner bars. These elements add an intimate atmosphere to the appearance of the spas. The cabinets are available in grey and brown color. Besides this, our new spa side cabinet's futuristic look instantly flies us into the future. An LED strip runs along the side of the spa cover (PeakLife). The newly developed corner elements give a more modern and futuristic look to our new range of hot tubs.

NECK MASSAGE & HEADREST

The neck massage and headrest melt the daily stress out of your shoulders and neck with their advanced ergonomics and more comfortable design. The design of the headrest follows the line of the neck and head, creating a cradle so you can relax even more comfortably in our hot tubs.

WATERFALL

Sit under the cascading water and enjoy a soothing neck and shoulder massage. This blissful water feature is a new development for Wellis.

FILTER HOUSING

Our custom-made filter housing has an outstanding design and complements the overall aesthetic of the hot tub. Filters can be replaced easily in one easy step.

∞ 7" ROTATING INFINITY JET

We specially designed the 7" rotating infinity jet. This jet makes the experience even more enjoyable by massaging a larger portion of the body. Rather than just moving up and down, it draws a figure eight as it rotates.
